The new Motion Charge&Go hearing aids from Signia. The most natural own voice with the convenience of wireless rechargeability in a strong housing. Simply Charge&Go.

signia-hearing.com/motion-charge-go

The new Motion Charge&Go.

Getting back to nature with friends, staying ahead of the competition at work or listening to personal treasures in your music collection, Motion™ Charge&Go from Signia is your trusty partner for a natural hearing experience, no matter how much you like to pack into your day.

True to its name, Motion Charge&Go can be fully recharged while you sleep so that it lasts longer and is always ready to go when you are. And its strong housing makes it extremely durable and ready for anything life throws at you. Simply Charge&Go!

Hear the sound of your own voice as nature intended.

Reading a book to a child, having a little chat with your neighbors, looking at holiday snaps with friends - Signia's Motion Charge&Go lets you fully enjoy all of life's wonderful moments.

It lets you perceive your own voice in perfect balance with your environment. This way, you can enjoy the most natural hearing experience and highest hearing performance, whether you're relaxing with a good book or exploring the great outdoors with friends.

Please note:

Features may vary depending on the configuration of the individual hearing aid. Your hearing care professional will be happy to assist you.

Enjoy direct streaming of phone calls, music, and TV.

Stream music in high quality stereo straight into your ears, discreetly adjust the volume to suit your wishes while watching your favorite TV show, or hear a phone call at the push of a button.

With Motion Charge&Go you have discreet and convenient remote control and premium Bluetooth connectivity for audio streaming from various sources at your fingertips - all you need is a smartphone.

More about Motion Charge&Go.

Further facts and figures.

Durable high performance with connectivity

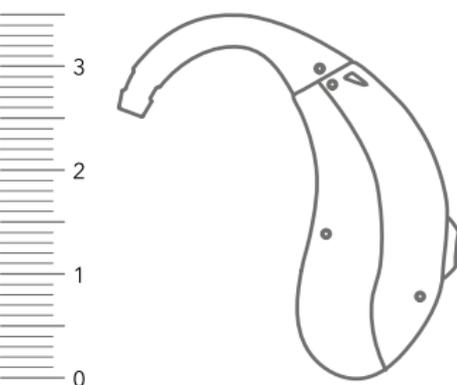

Thanks to its rechargeable, high capacity lithium-ion power cell, Signia's Motion Charge&Go offers a long-lasting, superior hearing experience even when you are streaming audio.

Enjoy sound in perfect harmony.

Hearing your own voice

Many hearing aid wearers do not like the sound of their own voice as it sounds loud and unnatural. As a world's first, Signia's Motion Charge&Go solves this: Its **OVP™ (Own Voice Processing)** provides you with a natural sounding own voice combined with optimal hearing of all other sounds for the most pleasant, natural listening experience.

Speech in noise

Thanks to its **Speech Quality**, Motion Charge&Go enables you to hear speech clearly in all situations through advanced noise suppression technologies. This makes it easier for you to understand your conversation partner in very noisy environments such as a restaurant or a conference.

Conversation while moving

The **3D Classifier** of Motion Charge&Go provides optimal hearing of your own voice and your acoustic environment even when moving - it automatically adjusts the settings based on the **myControl App's motion data**.

Crystal clear sound

Motion Charge&Go's **Sound Clarity** offers the most natural, lifelike sound in all environments.

Your reliable partners in natural hearing.

Wireless lithium-ion charging

Together with Signia's Motion Charge&Go comes the inductive charger: The hearing aids start charging automatically when you place them in the charger and turn on automatically when you take them out.

High level of wearing comfort

Equipped with a strong housing, the Motion Charge&Go behind-the-ear, or BTE model, sits snugly and discreetly behind your ear. Its ergonomic shape makes it extra comfortable to wear.

For a broad range of hearing loss

Motion Charge&Go tackles a wide range of hearing loss from mild to severe and gives you back the natural sound of life.
